GRASS PARK LETS 2020

For Basic Payment Scheme and all other eligible subsidy scheme purposes the period of let will be from the date of the sale (1st April) until the 12th May and the 19th May until the 11th November – however no livestock will have to be removed between the 12th and 19th of May.

If there are currently cattle on the same holding as the area let for grazing, we do not want to jeopardise the sellers BVD Status, therefore only animals from a 'negative' herd status would be allowed to graze the let area.

All fields are half payable on the day of the sale with the remaining balance on the 1st August 2020.

All fields to be let until the 11th November 2020
