TB Declaration Please tick

The holding **is not** under movement restriction for bovine Tuberculosis (TB)* ☐

OR

The holding **is** under movement restriction for bovine Tuberculosis (TB)* ☐

Cattle on the holding are not under movement restrictions for other animal disease or public health reasons (excluding a 13-day standstill). Withdrawal periods have been observed for all veterinary medicines and other treatments administered to the animals while on this holding and previous holdings.

To the best of my knowledge the animals are not showing signs of any disease or condition that may affect the safety of meat derived from them. No analysis of samples taken from animals on the holding or other samples has shown that the animals in this consignment may have been exposed to any disease or condition that may affect the safety of meat or to substances likely to result in residues in meat.

BVD Declaration

I/We hereby declare that the above animals are declared negative of BVD (Bovine Viral Diarrhoea) on the day of sale either by leaving a negative holding or having been individually tested. Please tick

1. **The holding which these animals have moved from to market is a BVD negative holding.** ☐
2. **The holding which these animals have moved from to the market is BVD not negative where all animals presented for sale are individually tested or their progeny has tissue tested negative.** ☐
