

## LAWRIE & SYMINGTON LTD

A smaller offering for our monthly online implement sale saw trade remain strong for quality, tidy items, while rougher equipment proved harder to cash, with buyers showing clear preference for well-presented and ready-to-work machinery. Demand was particularly firm for clean, genuine implements, with competitive bidding helping these lots achieve solid realisations.

Conversely, items showing heavier wear or requiring repair attracted more cautious interest, and in several cases did not meet vendors' expectations. Overall, despite the reduced entry, the sale demonstrated that the market continues to reward quality machinery, with buyers willing to pay for condition and reliability.

Top price of the sale was achieved by a Kubota Excavator, which sold for £12,200. Overall, despite the reduced entry, the sale demonstrated that the market continues to reward quality machinery, with buyers willing to pay for condition and reliability.

Our next Live sale will be on 28<sup>th</sup> May with all entries to be in by 27<sup>th</sup> May 3pm.
